RECOGNIZING SFC DEBRA L. NEWTON, UPON HER RETIREMENT

HON. JOE COURTNEY

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 22, 2015

Mr. COURTNEY. Mr. Speaker, today I rise to recognize an outstanding member of the Connecticut National Guard, Sergeant First Class Debra Newton. Debbie's service has transcended her title and encompassed a range of National Guard responsibilities and volunteer positions throughout her more than 35 years of National Guard service. Although she has served in multiple capacities as a Public Affairs Officer, ultimately as the Chief Public Affairs NCO, Debbie has always strived to go beyond her responsibilities and further serve the Guard community in Connecticut and beyond.

Debbie is an accomplished member of the Guard, whose work has been recognized by the Department of the Army and the National Guard Bureau. Debbie has acted as editor of the national award winning newspaper Connecticut Guardian since she created it in 2000. She has served as the Federal Women's Program manager and on the Joint Force Headquarters of Connecticut Common Task Testing Committee, and the 169th Leadership Regiment as the regimental Public Affairs Officer.

Debbie has been a member of the National Guard Association of Connecticut since 1980 and has served on the executive board for 13 of the past 15 years as President and Secretary. She is also an active and lifetime member of the Enlisted Association of the National

Guard of the United States (EANGUS). In both capacities, she provided a regular and effective presence in Washington to educate members of the Connecticut Congressional Delegation on the priorities of her members in Connecticut and around the country.

Debbie provided critical support to advance the priorities of Connecticut's National Guard in Washington and back home in Connecticut. Over the years, she was knee-deep with us in the critical fights that would determine the future of the Guard in Connecticut, including working to oppose the BRAC 2005 recommendation that removed A-10s from Connecticut, years of work towards securing a permanent flying mission for the 103rd Flying Yankees, advocating for the recognition of members of the National Guard as veterans, and promoting fairness for dual status military technicians.

Debbie's experience, commitment, and energy are unmatched. The Connecticut National Guard, and all those who serve in the uniform of our state and nation, is stronger thanks to her efforts. I ask my colleagues to join me in thanking Debbie for her decades of service and wish her well in her retirement.

CONGRATULATING THE EFFORTS OF DIAGEO

HON. JAMES A. HIMES

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 22, 2015

Mr. HIMES. Mr. Speaker, today, I am proud to congratulate the efforts of Diageo to make nutritional and alcohol-content information on alcoholic beverages more accessible to consumers.

Diageo is voluntarily taking steps to list this information in a way that is easily understood by most people. For many of us, it is not very useful to know how many calories a drink has per 50 milliliters, or what the alcohol content of one-third of a beer is. That's why Diageo will list this information by typical serving size, so consumers will know how much alcohol and how many calories are in a single can of beer or one mixed drink, for example.

While the labeling will begin in Europe right away, it is the company's plan to roll it out to all approved markets as soon as possible.

I am supportive of these efforts because I believe that consumers want more access to information about the food and beverages they consume, and want that information presented in a way that is relevant to the consumption decisions they make. I also think that any increase in transparency and labelling in the alcohol industry can help curtail alcohol overconsumption and drunk driving.

Diageo has been a longtime and upstanding member of the business community in the 4th Congressional District of Connecticut, and I am once again pleased to see them setting trends in their industry, especially when those trends could lead to a healthier and safer world.
